Mr. Dulles:

d. Noted a number of cables have been received containing ideas as to how to exploit Malenkov's downfall, and stated he desired a paper outlining these suggestions and what we are doing about them in order that it might be brought to the attention of the OCB.

e. Referred to the JCS Paper, Subject: "Changes to Operation Plan Which Implements NSC 170/1", dated 7 December 1954, and directed that one of the FE officers be made responsible for CIA participation in this matter. The Director went on to say

that the above-mentioned paper placed quite a load on CIA and after the Committee of representatives from State, Defense and CIA, who had been appointed to consider this problem, had met, a report of action taken should be made and also CIA should seek guidance from State and Defense on the problem referred to in NSC 170/1.
